About Us

We are SAQR AL FALAH Plastic and Building Materials Trading F.Z.C, a UAE-based company specializing in premium building and signage materials. Backed by over 15 years of industry experience across logistics, trading, and building materials, our team brings deep expertise and reliability to every partnership.

Driven by a commitment to quality, consistency, and timely delivery, we proudly serve contractors, fabricators, and businesses across a wide range of sectors.

At SAQR AL FALAH, we go beyond supply offering comprehensive product solutions, expert sourcing, and personalized customer support to ensure every project meets the highest standards of performance and durability.

Through our unwavering dedication to excellence, SAQR AL FALAH is building its reputation as a trusted and dependable partner in the UAE's dynamic construction and signage industry.

1. ACRYLIC SHEETS

Stronger, Safer, and Smarter Than Glass

Our acrylic sheets combine the clarity of glass with superior strength and versatility. Lightweight, impact-resistant, and easy to fabricate, they are perfect for architectural glazing, signage, displays, and interior décor.

Available in various colors, finishes, and thicknesses, including both Cast and Extruded options.

1.1 Clear Acrylic Sheets

Crystal-clear, durable, and impact-resistant, these sheets provide excellent optical clarity, making them ideal for architectural and decorative projects.

Key Features:

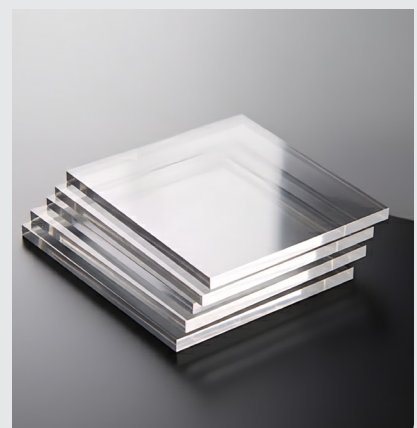

- Exceptional clarity and light transmission
- Strong, lightweight, and easy to fabricate

Applications:

- Glazing panels and partitions
- Protective shields and retail displays
- Aquariums and custom fabrication projects

Sizes & Thickness:

- Thickness: 1 mm – 100 mm
- Available Sizes: 1830 × 1220 mm | 2440 × 1220 mm | 2000 × 3000 mm

1.2 Colored Acrylic Sheets

Vibrant, durable, and versatile, these colored acrylic sheets offer exceptional strength with striking visual appeal. Available in transparent, translucent, and opaque finishes, they maintain color brilliance and resist fading even in harsh conditions.

Key Features:

- Lightweight yet stronger than glass
- Easy to cut, shape, and thermoform
- Multiple transparency levels and vibrant shades

Applications:

- Signage and retail displays
- Interior décor and lighting designs
- Architectural features

Sizes & Thickness:

- Thickness: 1 mm – 10 mm
- Available: 1220 × 1830 mm | 1220 × 2440 mm
| 2000 × 3000 mm

Available Colors:

Black, Green, Orange, Pink, Yellow, White, Blue, Ivory, Red, Purple, Brown, Grey, Tinted, and more

1.3 Common Colour Options

- Opal White Acrylic Sheets
- Opaque White Acrylic Sheets
- Black Acrylic Sheets
- Frosted Acrylic Sheets
- Matt Finish Sheets

1.4 Day & Night Acrylic Sheets

Crystal-clear, durable, and impact-resistant, these sheets provide excellent optical clarity, making them ideal for architectural and decorative projects.

Key Features:

- Dual-color visibility for day and night use
- Smooth and even light diffusion
- Durable, lightweight, and impact-resistant

Applications:

- Ideal For Illuminated Signboards
- Branding Panels
- Display Boxes
- Lettering
- Retail Signage.

1.5 Prismatic Acrylic Sheets

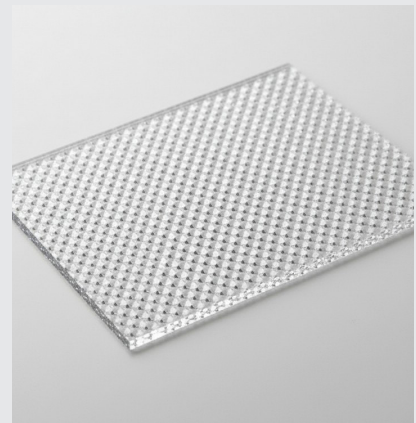

Textured acrylic sheets that disperse light evenly, reducing glare while adding decorative effects. Perfect for lighting panels and architectural applications.

Key Features:

- Uniform light diffusion
- Reduces glare
- Scratch- and impact-resistant

Applications:

- Light diffusers and ceiling panels
- Decorative glazing .

1.6 Mirror Acrylic Sheets

Lightweight and shatter-resistant alternative to glass mirrors. Available in silver, gold & other color finishes.

Key Features:

- High reflectivity
- Lightweight and durable- Safety-friendly compared to glass

Applications:

- Interior Décor And Wall Mirrors
- Furniture And Cabinets
- Signage And Displays
- Retail And Decorative Panels

1.7 Metallic Acrylic Sheets

Metallic effect acrylic sheets that replicate the look of metal with lightweight durability.
Available in gold and silver finishes.

Acrylic Rods & Tubes

Acrylic rods and tubes in various diameters and lengths for fabrication, DIY projects, and industrial use.

Key Features:

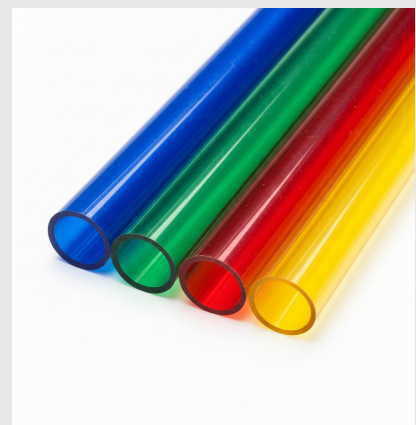

- Lightweight and durable
- Clear, & colored
- Long-lasting and impact-resistant

Applications:

- Custom Fixtures And Furniture
- Decorative Elements
- Signage Supports
- Industrial Applications

Sizes & Thickness:

- Diameter Options: 3 mm – 600 mm
- Length Options: 2 m

2. POLYCARBONATE SHEETS

2.1 Solid Polycarbonate Sheet

Durable, lightweight, and impact-resistant sheets with a UV-protective layer for indoor and outdoor use.

Key Features:

- About 50% lighter than glass
- Excellent impact and fracture resistance
- High clarity with UV protection

Applications:

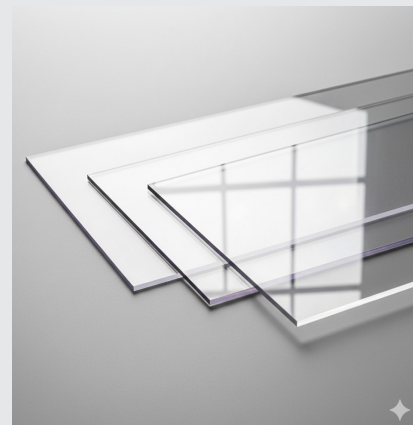

- Roofing, Skylights
- Overpass Covers
- Partitions
- Protective Enclosures
- Automobile Parts
- Industrial Panels

Sizes & Thickness:

- Thickness: 1-10 mm
- Sizes: 1220×2440 mm | 2000×3000 mm

Available Colors:

Clear, White, Bronze

2.2 Patterned / Textured / Prismatic Polycarbonate Sheets

Translucent sheets that diffuse light while ensuring privacy and safety, ideal for both residential and commercial use.

Key Features:

- Diffuses light while maintaining privacy
- High light transmission for bright interiors
- UV- and weather-resistant

Applications:

- Partitions, Privacy Screens
- Skylights, Roofing Panels, Domes
- Canopies, Fencing, Gates
- Displays, And Decorative Features (Interior Or Exterior)

Sizes & Thickness:

- Thickness: 1.6–10 mm
- Size: 2×3 m
- Colors: Clear, Bronze

2.3 Polycarbonate Rolls – Solid & Textured

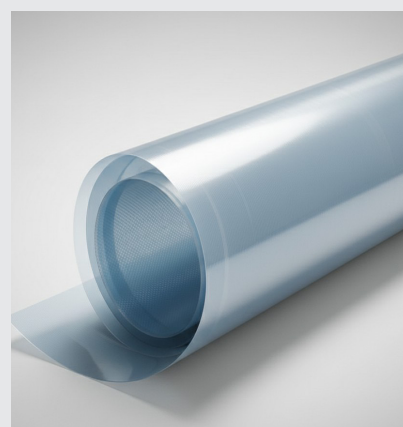

Flexible and durable polycarbonate rolls available in both solid and textured finishes. The textured rolls have one patterned side and one smooth side for added design flexibility.

Key Features:

- UV-resistant for long-term outdoor use
- High impact strength and durability
- Lightweight, easy to handle, and thermoformable
- Excellent optical clarity

Applications:

- Skylights, roofing, glazing
- POP displays, signage, protective shields
- Face guards, machine panels
- Decorative interior/exterior panels

2.4 Multiwall Polycarbonate Sheets

Lightweight panels offering excellent strength, and durability. Ideal for roofing, walls, and partitions with transparent or translucent UV-protected finishes.

Key Features:

- Excellent sound and heat insulation
- Lightweight, recyclable, and flame-retardant
- UV-resistant and highly durable

Applications:

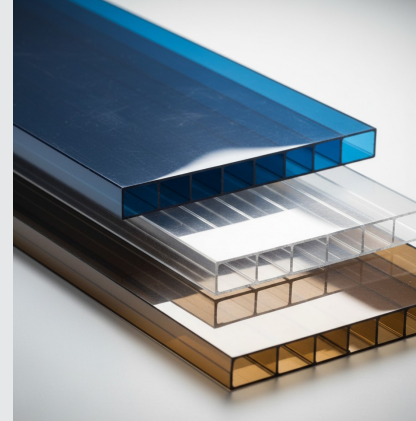

- Greenhouse and skylight roofing
- Noise-reducing and protective walls
- Pool and overpass covers
- Exhibition and interior partitions

Sizes & Thickness:

- Size: 2100 × 5800 mm
- Thickness: 4 / 6 / 8 / 10 / 16 / 25 mm

Available Colors:

Clear, Bronze, White

3. ACP SHEET (ALUMINIUM COMPOSITE PANEL)

ACP sheets are made of two thin layers of aluminium bonded to a non-aluminium core, offering a lightweight, durable, and smooth surface. They are widely used in architectural, signage, and interior design applications for their excellent aesthetics and weather resistance.

Key Features:

- Lightweight and easy to install
- Weatherproof and UV-resistant
- Available in glossy, matte, and metallic finishes
- Excellent flatness and smooth surface
- Fire-retardant and corrosion-resistant options available

Applications:

- Building facades and cladding
- Interior wall panels and ceilings
- Signage boards and display panels
- Corporate identity and branding structures
- Exhibition stands and shopfronts

4. PVC SHEETS – FOAM BOARD & FOREX SHEETS

4.1 PVC Free Foam / Forex Sheets

Lightweight, rigid panels with smooth matte finish, ideal for signage, displays, and creative projects

Key Features:

- Lightweight and easy to fabricate
- Excellent printability and surface quality

Applications:

- Signage and display panels
- Interior décor, prototypes, and creative projects

Sizes & Thickness:

- 1220 × 2440 mm — 1–25 mm, White black etc
- 2030 × 3050 mm — 2 mm / 6 mm, White

4.2 PVC Foam Board

Rigid, lightweight panel with polystyrene core, suitable for décor, educational, and creative uses.

Key Features:

- Lightweight and rigid
- Easy to cut, shape, and fabricate

Applications:

- Interior décor and decorative panels
- Educational models, arts, crafts, and signage bases

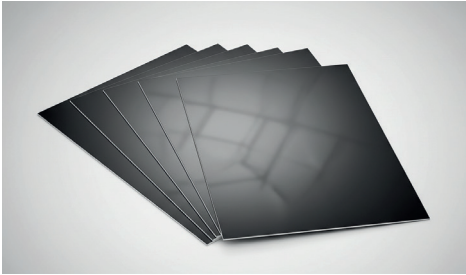

Sizes & Thickness:

- 1220 × 2440 mm — 5 mm / 10 mm, White

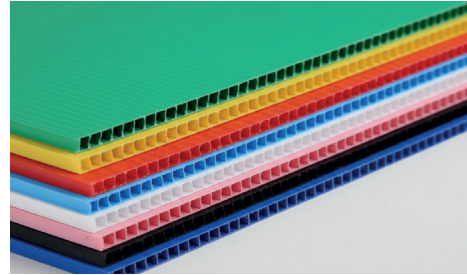

INDUSTRIAL SHEETS

ABS Sheets

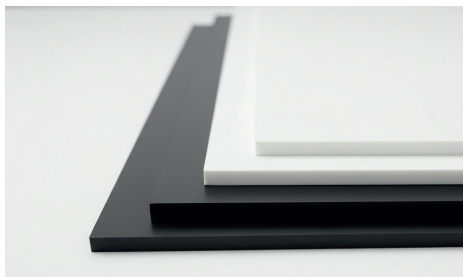

Strong, rigid sheets with high impact strength and excellent formability, ideal for automotive panels, appliance housings, and protective casings.

PP Corrugated Sheets

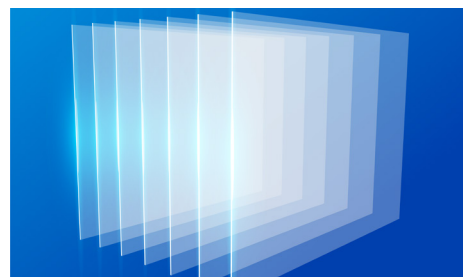

Lightweight, hollow polypropylene sheets that are waterproof, chemical-resistant, and perfect for packaging, material handling, and signage.

HDPE Sheets

Durable thermoplastic panels with chemical resistance and smooth edges, suitable for cutting boards, work surfaces, and industrial displays.

PETG Sheets

Clear, high-gloss, impact-resistant sheets that are food-safe and thermoformable, ideal for retail displays, prototypes, and protective housings.

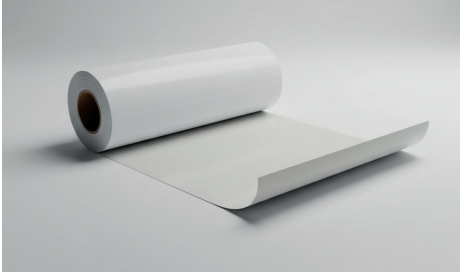

Rigid PVC Clear Sheets

Durable, transparent, and chemically resistant panels, suitable for protective glazing, indoor partitions, and industrial signage.

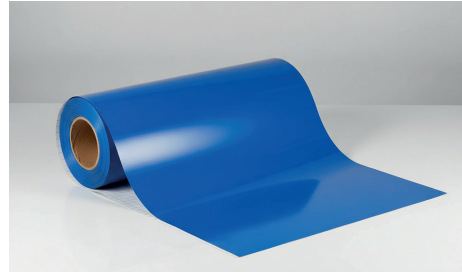

PRINT MEDIA PRODUCTS

Self-Adhesive Vinyl (Grey Back & White Back)

Durable, weather-resistant vinyl for high-resolution printing, suitable for indoor and outdoor signage, vehicle wraps, and wall graphics.

Colour Vinyl Adhesive Print Media

Permanent colored vinyl with strong adhesion and flexibility, ideal for shop signs, decals, crafts, and decorative projects.

Lamination Media Rolls

Protective films that enhance durability and display quality, suitable for posters, signs, billboards, and exhibition materials.

Frontlit Banner Print Media Roll

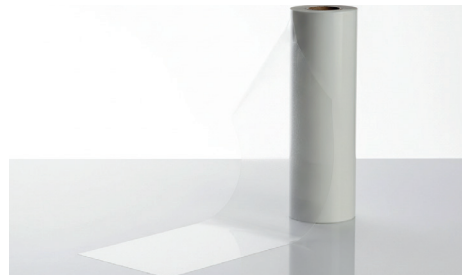

Heavy-duty banner media with glossy or matte finish, ideal for high-resolution printing on billboards, light boxes, and exhibition displays.

Backlit Flex Print Media Roll

High-quality backlit media with excellent light transmission, UV and water resistance, perfect for illuminated billboards, facades, and exhibition displays.

Frosted Film Media Rolls

Self-adhesive frosted film offering privacy and decorative effects for glass surfaces in offices, hotels, vehicles, and retail spaces.

Acrylic Glue

High-strength, clear adhesive for bonding acrylic, plastics, and other materials, ideal for signage, displays, crafting, and industrial applications.

Double-Sided Tapes

Strong, instant-adhesion tape for mounting and assembling lightweight materials, perfect for signage, posters, laminates, and craft projects.
